

6. (a) $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$
Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$

Annual rent /365 X no.of effective days remaining in the quarter

(b) Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$
Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$
Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$

(c) Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$
Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$
Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$

(d) Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$
Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$
Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$

6. Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$
Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$
Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$

7. Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$
Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$
Quarterly rent shall be calculated as follows: $\frac{\text{Annual rent}}{365} \times \text{no. of effective days remaining in the quarter}$
